Applications

[APPLICATION] Performance of a service on a **computing** platform
US Pat. 9920554 - Filed Aug 1, 2001 - Hewlett-Packard Company
After **system** reset, the **trusted device** 24 performs a secure boot process to ...
local user can trust the display of data **provided** by the **trusted device** 24 ...

[APPLICATION] Security bootstrapping for distributed architecture **devices**
US Pat. 11647583 - Filed Dec 29, 2006 -
These trusted applications together with the **trusted computing** base may make ...
such software certificates may be **provided** with the code, which the **device** ...

Dual processor **trusted computing** environment
US Pat. 6749115 - Filed May 31, 2001 - M-Systems Flash Disk Pioneers Ltd.
DUAL PROCESSOR **TRUSTED COMPUTING** ENVIRONMENT FIELD OF THE INVENTION
5 The
present ... the **system** is imbedded within a wireless communication **device**. ...

System and method for federated rights management
US Pat. 7389273 - Filed Sep 25, 2003
Device Package (540) The innermost layer of **information**, the **Device** Package (540
), may be **provided** by the Content Provider (120). The **Device** Package (540) ...

[APPLICATION] Security apparatus
US Pat. 9931657 - Filed Aug 16, 2001
10 to illustrates an example of the **information provided** by the interactive ...
After **system** reset, the **trusted device** 24 performs a secure boot process to ...

[APPLICATION] Method and **system** for secure **information**
US Pat. 10471896 - Filed Sep 12, 2003
A **system** according to claim 46 wherein the personal **computing device** executes
... said **information** representing the advice **provided** to the consumer; ...

[APPLICATION] Apparatus and method for providing sealed storage in a data
processing **device**
US Pat. 11345923 - Filed Feb 2, 2006
The computing **device** may still be able to run non-trusted applications and ... [
0006] The current "**Trusted Computing**" solutions **provided** by IBM work very ...

[APPLICATION] Mobile Wireless **Device** with Protected File **System**
US Pat. 11935020 - Filed Nov 5, 2007 - SYMBIAN SOFTWARE LTD.
The **trusted computing** base consists of a number of architectural elements that
cannot be subverted and that guarantee the integrity of the **device**. ...

Verified **device** locations in a data network
US Pat. 7606938 - Filed Feb 28, 2003 - Enterasys Networks, Inc.
The **system** provides location **information** for particular **devices** to the network
... one or more **trusted** network **devices** within a data network infrastructure,
...

[APPLICATION] Method and **system** for bootstrapping a **trusted** server having
